

## Warning

Whenever you ride your miniPRO you risk injury or death from loss of control, collisions, and falls. Be sure to read the User Manual and watch the Safety Video before riding.

Go to [www.segway.com](http://www.segway.com) to download the User Manual and watch the Safety Video.

The manufacturer reserves the right to make changes to the miniPRO, release firmware updates, and update this manual at any time. Visit [www.segway.com](http://www.segway.com) to download the latest user materials and watch the safety video. You must install the Ninebot by Segway App to follow the New Rider Tutorial, activate your miniPRO, and obtain the latest updates and safety instructions.

# QUICK START

Go to [www.segway.com](http://www.segway.com) to download the User Manual and watch the Safety Video.

Scan to download the App  
(Android 4.3 or above, iOS 5 or above)

Android

iOS

Alternatively, go to the Google Play Store (Android) or the Apple App Store (iOS) and search for "Ninebot" to download and install the App.

For your safety, the miniPRO will limit the max speed to 4.3 mph (7 km/h) until you complete the New Rider Tutorial. For the first 0.6 miles (1 km) after completing the New Rider Tutorial, the max speed will be limited to 6.2 mph (10 km/h), after which you can disable the speed limiter via the App and reach a max speed of 10 mph (16 km/h).

Wear an approved helmet and other protective gear to minimize any possible injury.

1 Install App and register/login.

2 Power ON the miniPRO. The Bluetooth icon blinking indicates the miniPRO is waiting for a connection.

3 Click "Search again" to connect to your miniPRO. Then select your device from the list at the bottom of the screen.

The miniPRO will beep when the connection is successful. The Bluetooth icon will stop blinking and remain illuminated.

Follow the App instructions to learn how to ride safely. Have fun!

1 Go to a large open area and ask a friend to assist you on your first ride.

**WARNING**  
Always step on from the back of the miniPRO.

2 Place one foot on the foot mat, with your other foot still on the ground holding your weight. Do not press the steering bar with your leg.

3 Slowly transfer your weight onto the miniPRO. The unit will beep, indicating it is now in balance mode. Slowly step on with your other foot.

4 Stand with your weight evenly distributed on both feet and relax, looking straight ahead.

**WARNING**  
If the miniPRO sounds an alarm or tilts back, slow down!

5 Gently lean your body forward and backward to control your movement.

6 To turn, gently lean left or right against the steering bar.

Complete the New Rider Tutorial then enjoy your ride!
